## **USANA Health Sciences Announces Record Third Quarter 2010 Financial Results**

- Net sales increased by 21.9% to \$135.0 million; Active Associates increased by 17.6%
- Earnings per share increased by 54.9% to \$0.79
- Company raises outlook for 2010

SALT LAKE CITY--(BUSINESS WIRE)--October 26, 2010--USANA Health Sciences, Inc. (NASDAQ: USNA) today announced record financial results for its fiscal third quarter ended October 2, 2010.

#### Financial Performance

Net sales in the third quarter of 2010 increased 21.9% to \$135.0 million, compared with \$110.7 million in the third quarter of the prior year. This growth was due to higher product sales, driven primarily by a 17.6% increase in the number of active Associates.

Net earnings in the third quarter of 2010 increased to \$12.8 million, or \$0.79 per share, compared with \$7.9 million, or \$0.51 per share, in the third quarter of the prior year, representing a 54.9% increase. This significant year-over-year increase resulted from an improved gross profit margin, a higher operating margin and a lower effective tax rate. The earnings per share gains were partially offset by a higher number of diluted shares outstanding.

For the nine months ended October 2, 2010, net sales increased by 18.7% to \$380.1 million, compared with \$320.2 million for the first nine months of the prior year. This growth in sales was due to an overall increase in product sales, driven by a higher average number of active Associates. Additionally, favorable changes in currency exchange rates accounted for \$17.4 million of the increase in net sales for the first nine months of 2010.

Net earnings for the first nine months of 2010 increased to \$33.3 million, or \$2.11 per share, compared with net earnings of \$23.3 million, or \$1.51 per share, for the first nine months of the prior year. This increase in earnings per share during the nine-month period resulted from significantly improved gross profit margins, lower relative selling, general and administrative expenses, and a lower effective tax rate, which were partially offset by higher Associate incentives expenses and a higher average number of diluted shares outstanding.

#### **Regional Results**

Net sales in the Asia Pacific region for the third quarter of 2010 increased by 48.7% to \$75.0 million, compared with the third quarter of the prior year. This improvement was primarily due to 134% growth in Hong Kong. Additionally, the recent acquisition of BabyCare added \$3.4 million in sales for the quarter. The number of active Associates increased by 47.4%, which was primarily the result of growth in Hong Kong and the addition of 10,000 active Associates purchasing product in BabyCare.

"Asia Pacific continues to be the region that is driving our current success, resulting in record highs for both sales and earnings," said Chief Executive Officer Dave Wentz. "With our focus on expanding our product and business offerings in the growing markets of Asia, the addition of BabyCare into the USANA family is significant because it provides the platform necessary to introduce our products into that market."

During the third quarter of 2010, net sales in the North America region decreased by 0.6% to \$60.0 million, compared with the third quarter of the prior year. The United States, however, experienced modest growth of 0.3% in the third quarter, while sales decreased in both Canada and Mexico. The number of Active Associates in the North America region declined by 10.8%, compared with the third quarter of the prior year.

Wentz also emphasized the company's continuing commitment to building its North American region. "In August we held our annual International Convention in Salt Lake City, where we launched several new products and a new interactive presentation tool. These new products and this new sales tool are designed to promote sales growth in North America, as well as in our other markets."

#### Outlook

Chief Financial Officer Jeff Yates said, "I am very pleased to see further improvements in our operating results during the third quarter. Our objective over the last several quarters has been to position ourselves for operating leverage as we experience growth in our top-line. Additionally, capital investments aimed at improving operating efficiencies facilitated a 290 basis-point improvement to our operating margin, compared with last year, and a 20 basis-point improvement on a consecutive quarter basis. In light of our sales growth and our margin improvements, coupled with the acquisition of BabyCare, we are raising our financial guidance for 2010. We now project consolidated net sales to be between \$512 million and \$515 million and earnings per share to be between \$2.90 and \$2.93."

#### **Conference Call**

USANA will hold a conference call and webcast to discuss this announcement with investors on Wednesday, October 27, 2010 at 11:00AM Eastern Time. Investors may listen to the call by accessing USANA's website at <a href="http://www.usanahealthsciences.com">http://www.usanahealthsciences.com</a>.
