USANA Health Sciences Announces First Quarter 2011 Financial Results

- Net sales increase by 20.6% to \$143.6 million
- Earnings per share increase by 12.9% to \$0.70

SALT LAKE CITY--(BUSINESS WIRE)--April 26, 2011--USANA Health Sciences, Inc. (NYSE: USNA) today announced financial results for its fiscal first quarter ended April 2, 2011.

Financial Performance

Net sales in the first quarter of 2011 increased by 20.6% to \$143.6 million, compared with \$119.1 million in the first quarter of the prior year. This growth was due to higher product sales and an increased number of active Associates driven by the Company's BabyCare subsidiary in China. BabyCare in the first quarter added \$5.7 million in sales and 11,000 Associates. Additionally, favorable changes in currency exchange rates added \$4.2 million in sales.

Net earnings in the first quarter increased by 17.7% to \$11.4 million, or \$0.70 per share, compared with \$0.62 per share in the first quarter of the prior year. This increase resulted from improved gross profit margins and lower relative Associate incentive expenses. Earnings per share gains, however, were partially offset by higher selling, general and administrative expenses and an increased number of diluted shares outstanding.

Regional Results

Net sales in the Asia Pacific region for the first quarter of 2011 increased by 42.6% to \$83.5 million, compared with the first quarter of the prior year. This improvement was primarily due to strong growth in Hong Kong, the Philippines, South Korea and the addition of BabyCare. In the first quarter, the number of active Associates in this region increased by 18.2%, which was primarily the result of growth in Hong Kong and the Philippines, as well as the inclusion of 11,000 BabyCare Associates.

Chief Executive Officer, Dave Wentz said, "We held our annual Asia Pacific Convention in Hong Kong during the first quarter, where a record 7,800 USANA Associates attended to receive training and to learn about new regional products and incentive programs. Sales at this event, which was held during the second quarter last year, added \$3 million dollars to the region. Most importantly, this event provided us with an opportunity to update our Associates on the integration of BabyCare. Another exciting announcement at this event was the introduction of our first phase of USANA-branded products through BabyCare. We plan to introduce additional products into that market as we receive the required regulatory approvals. Integrating and growing our China market will continue to be our most significant business objective for 2011."

During the first quarter of 2011, net sales in the North America region decreased by 0.8% to \$60.0 million, compared with the first quarter of the prior year. The number of Active Associates in the North America region declined by 11.7%, compared with the first quarter of the prior year.

"Economic conditions in North America continue to present a challenging business environment for USANA, as well as for many other businesses in the direct selling industry," Wentz continued. "Although sales in this region have been flat during this economic recession, we continue to believe that North America is crucial to the long-term success of USANA. In an effort to improve our North America results, we have increased our brand awareness efforts, which we believe will make it easier for Associates to introduce our products and business opportunity."

Outlook

Today we are reiterating financial guidance for 2011. We continue to project consolidated net sales to be between \$530 million and \$550 million and earnings per share to be between \$2.85 and \$2.95.

"Our first quarter financial results were consistent with our expectations," said Jeff Yates, Chief Financial Officer. "Beginning in the second quarter, we will implement certain strategic changes in Hong Kong, which are intended to promote growth in BabyCare's business in China. As we focus our efforts to grow China, we anticipate that sales in Hong Kong will decline. Our estimates suggest that we will begin to see meaningful growth in China by the end of 2011 as we introduce additional USANA products into that market and as our Associate leaders become more familiar with BabyCare. We continue to believe that China remains USANA's most significant and imminent growth opportunity."

Conference Call

USANA will hold a conference call and webcast to discuss this announcement with investors on Wednesday, April 27, 2011 at 11:00 a.m. Eastern Time. Investors may listen to the call by accessing USANA's website at http://www.usanahealthsciences.com.
