### **USANA Health Sciences Reports Strong Second Quarter 2011 Financial Results**

- Net sales increase by 18.2% to \$148.9 million
- Earnings per share increase by 27.5% to \$0.88
- Company raises outlook for 2011

SALT LAKE CITY--(BUSINESS WIRE)--July 26, 2011--USANA Health Sciences, Inc. (NYSE: USNA) today reported financial results for its fiscal second quarter ended July 2, 2011, which were stronger than the preliminary results announced on June 29, 2011.

#### Financial Performance

Net sales in the second quarter of 2011 increased by 18.2% to \$148.9 million, compared with \$126.0 million in the second quarter of the prior year. Higher product sales and an increased number of active Associates in the Company's Asia Pacific region were the primary drivers of this growth. Favorable changes in currency exchange rates added \$5.9 million to sales during the quarter, and BabyCare, the Company's operating entity in China, added \$5.6 million to sales.

Net earnings in the second quarter increased by 28.7% to \$13.9 million, or \$0.88 per share, compared with \$0.69 per share in the second quarter of the prior year. Net earnings growth resulted from improved gross profit margins on higher net sales and lower relative selling, general and administrative expenses. Earnings per share for the period benefited by \$0.06 due to the recapture of unvested equity compensation expense related to the departure of certain executives from the Company.

Chief Executive Officer Dave Wentz said, "Our team generated solid performance during the second quarter, despite unanticipated changes and challenges. The execution of our strategic plan by the management team and Associate sales force, in light of these challenges, reflects the strength of the underlying business and the dedication of our people. A major factor behind our performance, and confidence in the future, is the synergy that exists between the management team and our Associate leaders. We believe that this relationship is as strong as ever."

For the six months ended July 2, 2011, net sales increased by 19.3% to \$292.5 million, compared with \$245.1 million in the prior year. This growth was driven by higher product sales and an increased number of active Associates in the Asia Pacific region. For this period, BabyCare added \$11.3 million to sales, and favorable changes in currency exchange rates accounted for \$10.0 million of the \$47.4 million increase.

Net earnings for the six months ended July 2, 2011 increased by 23.5% to \$25.2 million, or \$1.58 per share, compared with \$1.31 per share in the prior year. This net earnings growth resulted from significantly improved gross profit margins on higher sales. These improvements were partially offset by higher selling, general, and administrative expenses that can primarily be attributed to the inclusion of BabyCare's operations.

#### **Regional Results**

Net sales in the Asia Pacific region for the second quarter of 2011 increased by 38.7% to \$88.7 million, compared with the second quarter of the prior year. This improvement was due to strong growth in Hong Kong, South Korea, and the Philippines, as well as the addition of BabyCare. In the second quarter, the number of active Associates in this region increased by 20.9%, which was primarily the result of double-digit growth in Hong Kong, South Korea, and the Philippines, as well as the inclusion of 14,000 BabyCare Associates. On a sequential quarter basis, net sales and the number of Active Associates in the region increased 6.1% and 6.9%, respectively.

"The performance from our Asia Pacific region was particularly impressive given the strategic changes that occurred during the quarter and the competitive pressures that currently exist in this region," continued Mr. Wentz. "Our Asia Pacific team, led by Deborah Woo, is to be credited for our strong growth in the region and for the improvements to our China integration strategy. Our management team is confident that the modified integration approach for BabyCare will drive long-term, sustainable growth in this region. In addition to our recent entry into China, we are expanding our international operations into Thailand in the fourth quarter of 2011, and we plan to be more aggressive in our international expansion efforts in the near future."

During the second quarter of 2011, net sales in the North America region decreased by three percent to \$60.3 million, compared with the second quarter of the prior year. The number of Active Associates in the North America region during this period also declined by 12.6%, compared with the second quarter of the prior year. On a sequential quarter basis, sales in this region were up slightly and the number of Active Associates was flat.

"We remain committed to growing our North America region," added Mr. Wentz. "Our North America team, led by Kevin Guest, and Associate leaders are working closely together to achieve this goal. The strategies that we are evaluating for this region include product innovation and customization initiatives, as well as incentive offerings for our Associates to reward top performers. In August 2011, we will hold our 19<sup>th</sup> Annual International Convention in Salt Lake City, where we expect Associates from each of our 15 markets will attend. This event provides an excellent opportunity to introduce new programs and incentives, while training and motivating our Associates."

#### Outlook

Chief Financial Officer Doug Hekking commented, "Based on the strength of our results in the first half of the year, we are raising our outlook for 2011. We now project consolidated net sales to be between \$565 million and \$575 million for the year, versus our previous outlook of \$530 million to \$550 million. In addition, we now expect to generate earnings per share between \$3.05 and \$3.10 versus our previous outlook of \$2.85 to \$2.95. This renewed outlook reflects the continued integration of BabyCare into our business, as well as the competitive challenges that we will likely face in the second half of the year. We remain committed to the goal of delivering growth in each of our markets, with a continued focus on operational efficiency. Overall, we expect USANA to finish off a strong 2011 and to deliver our ninth consecutive year of record financial performance."
